

KEY PLAN

Notes

1. Setting out shall be undertaken using only the information given. Distances should not be scaled from this drawing.
2. All sewers shall be constructed in accordance with Sewers for Adoption 7th Edition and Welsh Water Details & Guidelines.
3. The minimum gravity pipe diameter under adoptable highways shall be 150mm
4. It is the responsibility of the Contractor to verify all information given with regard to existing services and drainage connections etc prior to commencing the works. The rates shall include for hand dig around services where necessary. The Contractor shall adhere to the CDM Regulations at all times.
5. The outfalls of all sewers shall be a minimum of 1.0m from kerb lines and the outside of manholes shall be a minimum of 0.5m from kerb lines
6. Existing flows in watercourses, sewers and land drains shall be maintained at all times
7. Only trained personnel shall be permitted to enter confined spaces
8. All materials to be relevant to BS 8, 9, 16, 20, 24 and comply fully with the specifications. All concrete & concrete products used must be Sulphate resistant cement to withstand Class 3 condition (unless the site investigation report provides that sulphate attack from soils and groundwater will not occur).
9. All opening notices etc. as required under Highways Acts etc. are to be obtained prior to commencement of works. All works are to be inspected by L.A., NIRC or the Network Operator as applicable.
10. Where "structured wall" UPVC pipes are used in adoptable drainage they are to be installed and laid in accordance with the manufacturers instructions and will be subject to post installation deformation testing prior to adoption.
11. A 10m Bed & Burdum must be provided for such pipes
12. Trench baffle in highways to within 1m of highway shall, as directed by the Highway Authority be a suitable granular material all in accordance with Sewers for Adoption.
13. Slab levels shall not be varied without reference to the Engineer for guidance.
14. Pipes have not been designed to accommodate construction traffic and the contractor is responsible for providing adequate protection to the pipes during construction.
15. All works to be in accordance with Denbighshire County Council's Specification and Standard Details, and as agreed with Denbighshire County Council's representative.
16. The developer must self-verify and certify that the design criteria, material standards and workmanship specifications for the proposed adoptable sewers are in accordance with those set out in "Sewers for Adoption" 7th Edition (SFA 7th), The Welsh Ministers Standards and the requirement of the Water and the Statutory Sewerage Undertaker.
17. Subject to a Section 104 ADO Agreement being complete, a Section 106 application to connect must be made to DCWW the developer shall be given 21 days notice prior to connection. The works may only be undertaken on an SS10 or SS15 pipe.
